RICHARD W. WEEKLEY

June 25, 2007

Dear Governor,

You have another unique opportunity to positively impact education in our state. With the resignation of Commissioner Shirley McWreley, a candidate who I would strongly recommend is Sandy Kress.

I have worked closely with Sandy and found him to be an indefatigable worker, brilliant, persistent, and competent. And he is finally fed up with the marginal, incremental steps being made in education and I believe is ready to be bold to SOLVE THE PROBLEMS with public education.

The members of your Governor's Business Council who worked so closely with Charles McPhalen & have observed Sandy's tenacity, I believe, would support your choice of Sandy Kress overwhelmingly.

Thank you for your consideration.

Sincerely, Rich

GOVERNOR'S BUDGET OFFICE

Re: We Urge Your Veto of H.B. 3485

Dear Governor Perry:

All of us in Texans for Lawsuit Reform are deeply grateful to you for being the best tort reform Governor in American history. Not only have you been instrumental in the enactment of the most comprehensive tort reform legislation in our nation's history, but you have consistently appointed conservative men and women to the Texas bench of exemplary intellect and integrity.

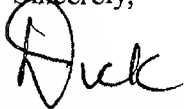

We write to urge your veto of H.B. 3485. This bill significantly distorts an essential concept contained in H.B. 4 of 2003: namely, the capping of non-economic damages in medical liability lawsuits. We believe this bill deserves a veto not only because of the ill-conceived and clumsily-crafted caps provision in the bill but, more importantly, because of the way the provision was furtively inserted into the bill without consideration by either chamber of the Texas Legislature.

We are concerned that if H.B. 3485 is not vetoed, then trial-lawyer proponents in the Legislature will see it as the model in the future for getting into law provisions that otherwise would be defeated if actually considered by the Legislature. In this past session, over 900 bills contained provisions that were harmful to our civil justice system, yet only this one provision in H.B. 3485 made it to your desk because of opposition in the Legislature to trial-lawyer inspired legislation. And this provision made it to your desk *only* because it was inserted in the waning days of the Session and very few legislators knew it was in H.B. 3485.

We suggest that if H.B. 3485 is not vetoed, then the last week of the next Session will be frantic with activity by a few legislators inserting into bills trial-lawyer legislation that was defeated during the regular course of the Session.

Thank you for your consideration of our views and for your leadership on civil justice issues.

Sincerely,

Dick Weekley
Chairman & CEO

TUESDAY, MAY 3, 2011

9/26/11 3:51 PM

State Schedule for Governor Rick Perry
